

## Starfield & Smith Express

### Balancing Compliance with Efficiency

Starfield & Smith Express provides a focused, timely compliance review for experienced SBA lenders at a predetermined price point that is significantly lower than our full-service SBA closing and compliance service. Our experienced SBA audit team will perform a review of your designated loan files after closing to identify any material deficiencies that would adversely impact the integrity of the SBA guaranty.

### Mitigating Risks of Repair or Denial of the SBA Guaranty

Starfield & Smith Express is specifically designed to mitigate lenders' risk and to reduce the number and magnitude of repairs and denials in lenders' SBA portfolios at a price point that provides a substantial return on investment, and in a timeframe that does not slow the closing process. The Express review process provides:

- *A quality assurance check on a lender's SBA loan closing process and procedures;*
- *An opportunity to quickly identify and address any weaknesses in a lender's loan closing process*
- *An exception memo, backed by the unparalleled experience and reputation of Starfield & Smith, which notes any deficiencies found during the review.*

Because Starfield & Smith Express reviews are performed immediately after closing, they maximize the lender's opportunity to correct any errors that could result in a repair or denial of the SBA loan guaranty at a time when the borrower is more likely to cooperate.
